

CIL MT Systems 2026

Complete Study Plan | Starting June 6 | Systems / CS / IT Discipline

5–6 hrs

Daily study

Split 2+2+1 sessions

~3 months

Total prep time

Jun 6 → Sep 2026

43

Total vacancies

System discipline

160+/200

Target score

Sureshot band

Score targets

Paper I

GK + Aptitude + English

Aim: 70+ / 100

Paper II

CS/IT Technical

Aim: 90+ / 100

Mocks

Start from Week 7

2 per week

Overall

Final selection band

160+ / 200

Phase-wise weekly plan

Phase 1 Foundation — CS/IT Core + Aptitude Basics Jun 6 – Jul 6 (4 weeks)		
Week	Paper II — Technical	Paper I — Aptitude / GK / Mock
Week 1 Jun 6–12	Data Structures	Number Series
	Arrays, Stacks, Queues	Simplification
	Trees & Graphs	Current Affairs — daily
Week 2 Jun 13–19	Algorithms	Ratio & Proportion
	Sorting & Searching	Percentage
	Time Complexity	Seating Arrangement
Week 3 Jun 20–26	DBMS	Syllogisms
	SQL & Queries	Coding-Decoding
	Normalization	Coal sector basics
	Transactions & ACID	
Week 4 Jun 27–Jul 6	Operating Systems	Reading Comprehension
	Process Scheduling	Error Spotting
	Memory Management	Polity & Economy GK

Phase 2 Build-up — Networking, Security & Advanced Topics Jul 7 – Aug 3 (4 weeks)		
Week	Paper II — Technical	Paper I — Aptitude / GK / Mock
Week 5 Jul 7–13	Computer Networks	Work & Time
	OSI / TCP-IP Model	Distance & Speed
	Protocols: HTTP, DNS, FTP	Blood Relations
Week 6 Jul 14–20	Cybersecurity	Puzzles
	Encryption & Cryptography	Direction Sense
	Firewalls & IDS/IPS	Awards & Sports GK
Week 7 Jul 21–27	Cloud Computing	Vocabulary & Fill-ups
	AWS / Azure basics	Cloze Test
	Virtualization	1st Full Mock CBT
Week 8 Jul 28–Aug 3	Software Engineering	Sentence Rearrangement
	SDLC & Agile	Science & Tech GK
	Software Testing	Mock Analysis

Phase 3 Consolidation — Emerging Tech + Full Revision Aug 4 – Aug 31 (4 weeks)		
Week	Paper II — Technical	Paper I — Aptitude / GK / Mock
Week 9 Aug 4–10	AI & ML basics	Full Paper I revision
	Web Technologies	2 Mocks this week
	OOP Concepts	
Week 10 Aug 11–17	Blockchain basics	Monthly GK magazine
	IT Governance: ITIL, COBIT	2 Mocks + deep analysis
	ERP Systems	
Week 11 Aug 18–24	DSA + DBMS revision	Aptitude weak areas
	OS + Networks revision	2 Mocks this week
Week 12 Aug 25–31	Full Paper II revision	Paper I revision
	PYQ practice	2 Full mocks

Phase 4 Final Sprint — Mocks + Weak Area Fix (3 hrs mock daily) Sep 1 – Exam day		
Week	Paper II — Technical	Paper I — Aptitude / GK / Mock
Every day Sep 1 -> Exam	Full 200-mark mock CBT	Current Affairs
	Error analysis	1 topic speed drill
	Concept re-read	Weak area fix

Daily schedule (5–6 hours)

Slot	Duration	Activity	Focus
Morning	2 hours	Paper II — Technical topics	DSA / DBMS / OS / Networks (fresh brain)
Afternoon	2 hours	Paper I — Aptitude & Reasoning	Quant, Verbal, Logical practice sets
Evening	1 hour	GK / Current Affairs / English	10 min news + GK capsule + vocab
Night	30 min	Review & mark doubts	Re-read mistakes, note topics to revisit

Key tips for sureshot selection

1. Paper II is the tiebreaker	When two candidates score the same total, the one with higher Paper II marks wins. Focus heavily on DBMS, DSA, OS, and Networks — these 4 topics cover ~60–70% of Paper II.
2. No negative marking — attempt all 200 questions	Never leave any question blank. Even a random guess gives a 25% chance. Unattempted questions give zero, wrong answers also give zero — so always fill something.
3. Mock analysis > solving mocks	Solving a mock without reviewing errors is wasted time. Spend at least 45 minutes analysing every mock: why you got each wrong, which concept to re-read, which topic to drill next day.
4. GK is free marks	10–15 minutes of daily current affairs (app or capsule) from June onwards gives you a compounding advantage. Coal sector, PSU news, IT policy, and Science & Tech are most tested areas.
5. Only 43 seats — aim 160+, not just qualifying marks	The qualifying cut-off (40/paper) is just the floor. With 43 General seats and thousands of CS/IT graduates applying, the actual competition cutoff will likely be 140–150. Target 160+ to be safe.

Recommended resources

Paper	Topic	Resource	Notes
Paper II	DSA + Algorithms	GATE CS — Made Easy / GATE Academy	Syllabus overlaps heavily with GATE CS
Paper II	DBMS / OS / Networks	Neso Academy (YouTube) + Arihant GATE CS	Free video + book combination
Paper II	Cybersecurity / Cloud	GeeksforGeeks articles + mock papers	Topic-wise MCQ practice
Paper I	Quantitative Aptitude	RS Aggarwal — Quantitative Aptitude	Standard PSU prep book
Paper I	Reasoning	RS Aggarwal — Verbal & Non-Verbal Reasoning	Cover all puzzle types
Paper I	GK / Current Affairs	Adda247 monthly GK capsule / GKToday app	10–15 min daily from June
Mocks	Full CBT mock tests	piyushwairale.com — CIL MT System Test Series	Specifically designed for Post Code 14
